

I and my wife are strongly opposed to any weakening of Indiana's Telephone Privacy Law. We have been delighted with the results of Indiana's "no call" law and view telemarketing as an intrusion of privacy. As a physician, I adamantly support the ability of patients and staff to reach me with ease - so I do not have unlisted numbers or answering services. Dealing with new telemarketing calls could impede my receiving a call of true importance or emergency.

Thank you sincerely,

James H Anderson Jr MD
